Javalin - A simple web framework for Java

- There are no @Annotations
- There is no other magic; just code
- There is no reflection
- Cookie Store
- Handlers
- Validation
- Access manager
- Exception Mapping
- Caching
- Plugins
- very lightweight
- for Java
- for Kotlin
- You don't need to extend anything
- WebSockets
- async requests
- HTTP2
- Logging
- Single page mode
